

Urn

Jointly, the Buxton HAZ and High Peak Borough Council are funding the reinstatement of one of the 12 missing urns that was removed due to safety concerns several years ago. The urns are Grade II* listed, and a new urn is being carved by a specialist contractor to match the existing urns exactly. It is being carved in Bath stone and once complete it will be stored at the stone yard to case harden for a year before finally being reinstated on the Slopes.
